

## THE PROBLEM

Most e-commerce Marketplaces have extremely strict country restrictions in place, therefore, a large part of the world can't even access these platforms. eBay for example, only operates in 27 countries out of the 195 countries in the world. There needs to be one global eCommerce Marketplace to allow all of earth's citizens the equal opportunity to transact and do business. A lot of marketplaces online also restrict digital goods and online services and only allow for physical products to be bought and sold.

## SOLUTION

EZ Cash is a platform and a true e-commerce marketplace that will host every type of commodity and service possible to create a One-Stop eCommerce Marketplace. Our Vision is to remove the great divide that separates everyone from dealing on a level playing field with no restrictions. EZ Cash will use a fusion of Blockchain and eCommerce to create an anonymous, safe and responsible Global Marketplace.

## PLATFORM

### Deposit Coins

Deposit BTC or other currency to buy on the platform

### Buy or Sell

You can Buy goods and services by spending EZE Tokens or Sell goods and services and earn EZE Tokens

### Register an EZCASH Account

### Buy EZE Tokens

### Cash out

A user can register as a buyer / seller. You can register an account from anywhere on earth making this a truly global platform.

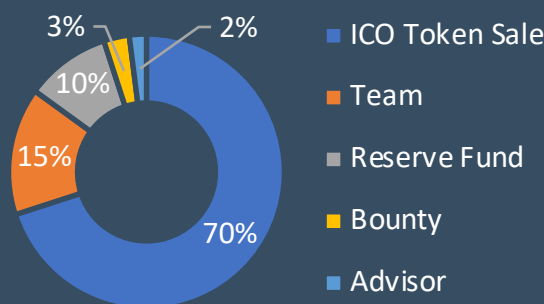

Purchase EZE Tokens to save on purchases and trades. Cash out to Exchanges and other Coins and currency.

You can cash out your EZE Tokens at anytime. The Platform will also have an exchanger onsite so you can send directly to save on transaction fees.
